
UNITED FARMERS AND STOCKOWNERS OF S.A. INC.

SRG 426
Box list

United Farmers and Stockowners of S.A. Incorporated was formed through an agreement dated 26 March 1979 between the Stockowners Association of South Australia Incorporated representing pastoralists and other growers concentrating on wool and beef production and United Farmers and Graziers of S.A. Incorporated representing grain growers, commodity producers and those engaged in mixed farming. The main objects of the new association as defined by the constitution were "to secure to members all the advantages of unity of action to protect the interests of primary producers in all matter affecting the occupation, use and development of land, for the purpose of primary production...". The structure, based largely on that of the former United Farmers and Graziers of S.A. Incorporated, was of a governing council consisting of principal office bearers and others elected at state conference, together with a member from each zone and commodity section, zone councils comprising delegates from branches and the local branches established within zones of which there were sixteen in 1989.

NOTE: Records in this group were received in two batches: boxes 1-17, together with rolled items and a zone map were received in 19XX; boxes 18-96, together with outsize items 1 – 79 were received in July 2013. Sequences listed in the first accession may well be continued in boxes received later.

Box 1: Constitution. 1987.

State Conference reports. 1982-84.
Governing Council minutes. 1979-82.
